Improving long-term care for our seniors

The state has underfunded nursing facilities by \$116 million per year, forcing more than thirty facilities to permanently close in the last nine years.

Senator O'Ban took on this crisis and secured new funding.

He sponsored Senate Bill 6396 to close the funding gap and increase the quality of nurses, staff, and the number of beds available for aging and vulnerable seniors.

But there is much more to do.

As we continue to deal with the dangers of COVID-19, we need to work harder than ever to improve nursing facilities and keep our at-risk seniors safe.
