Steve
O'Ban

Our State Senator (R)

Safe schools

Steve O'Ban authored the first COVID bill to pay for testing and nurses. He called for a special session for the legislature to provide the resources for teachers and students so schools can open carefully, with proper safety protocols.

Investing in students

Senator O'Ban will protect the gains we have made! With a budget crisis looming next year, there will be pressure to make cuts in the state budget. Steve fought hard to fully fund schools and he is committed to protecting those investments!

Investing in careers

Senator Steve O'Ban secured historic funding in our local schools, and he also helped cut tuition at state colleges and is working to improve access and affordability for those who choose vocational schools.
