Our State Senator (R)

**Steve O'Ban  
is improving  
our health care.**

Senator O'Ban helped end "surprise billing," so patients don't get stuck with big medical bills from out-of-network providers. He sponsored the first coronavirus bill to fund testing and nurses. And he passed legislation to make drug pricing transparent and bring down costs for seniors.

**Keeping Seniors Safe!**

The last nine years, more than 30 nursing facilities closed due to lack of state funding. Senator O'Ban responded with the most effective legislation so far, increasing funding to improve care. Senator O'Ban is working to improve these facilities to keep our most vulnerable citizens safe and healthy.
